

Getting Started

To start using your Honeywell FocusPRO S200 Thermostat:

1. Download the First Alert by Resideo App.
 - Search for “**First Alert by Resideo**” in your app store.
2. Ensure your thermostat is on and connected to Wi-Fi.
 - If not yet connected, follow the thermostat’s setup instructions.
3. Create a Resideo account.
 - Launch the app and follow the instructions.
4. Add the thermostat to the app.
 - Tap the **MENU** icon in the app.
5. Select “Connect to App.”
 - Follow the on-screen prompts to pair with the app.
6. Confirm pairing.
 - The app will display a confirmation when it’s connected.

What you can do once connected:

Remote Control:

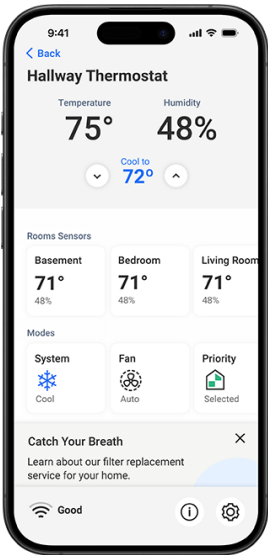

Adjust temperature, set modes, and change fan settings from anywhere.

Scheduling:

Create or edit schedules.

Auto-Away Mode:

Let the thermostat adjust automatically when you're away.
